### Key Steps

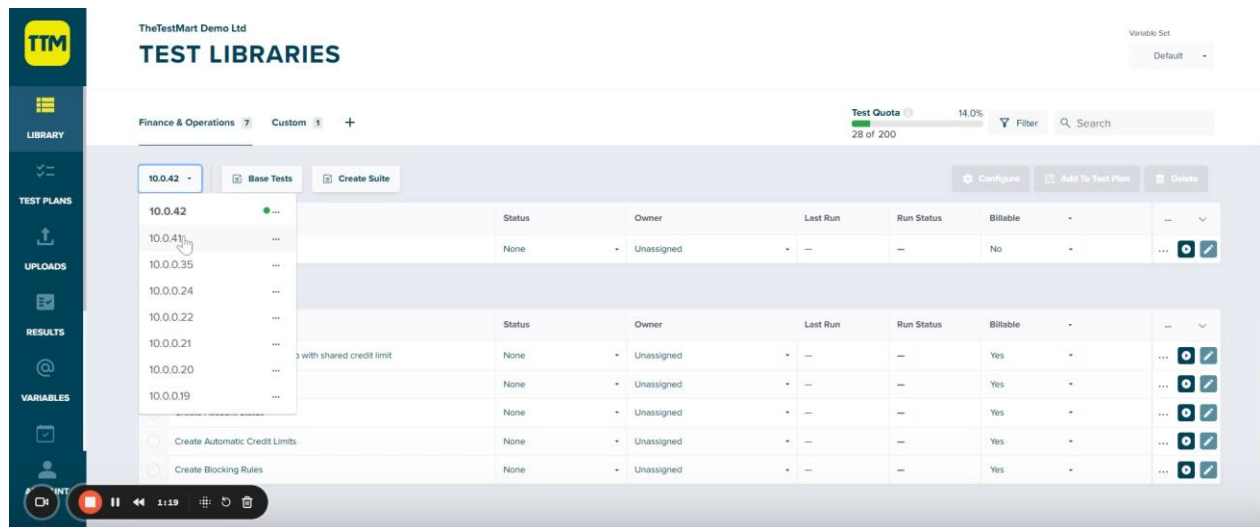

#### 1. Toggle Between Platforms [0:40](#)

- Click on the name of the platform in the top left corner to switch between different platforms.

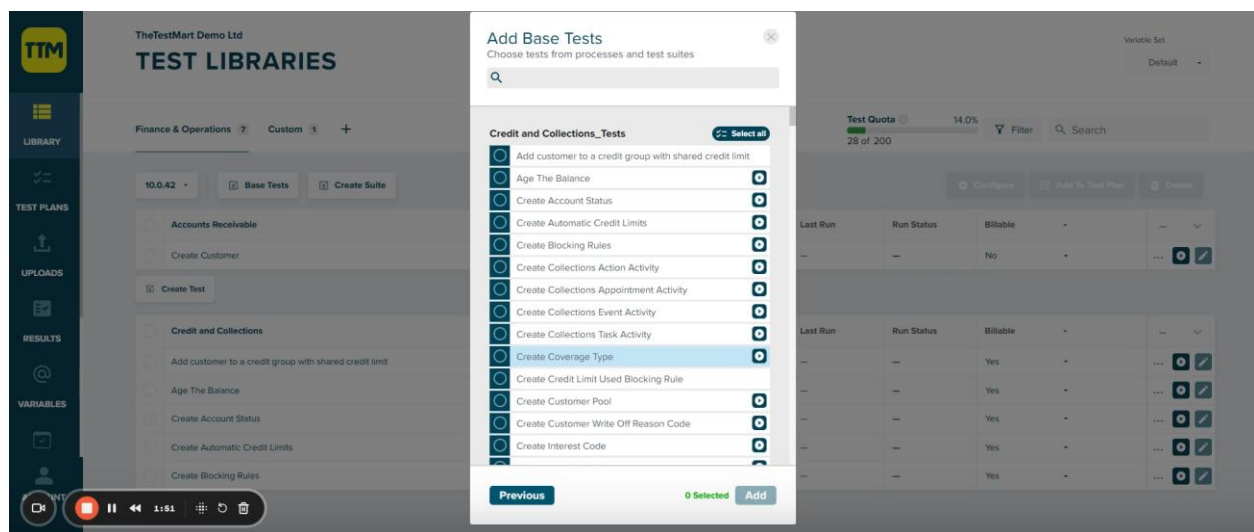

#### 2. Select Test Version [1:01](#)

- Use the version drop-down to select the current version of your tests or navigate to previous versions as needed.

### 3. Browse Base Tests [1:21](#)

- Select your version number and click next to view available base tests categorized by FNO modules.

### 4. Add Base Test to Library [1:57](#)

- Click the button next to the test name and then click add to include the base test in your library for customization.

### 5. Create a Test Suite [2:13](#)

- Click 'Create Suite', give it a name, and click submit to create a new suite for organizing tests.

## 6. Check Test Quota [3:16](#)

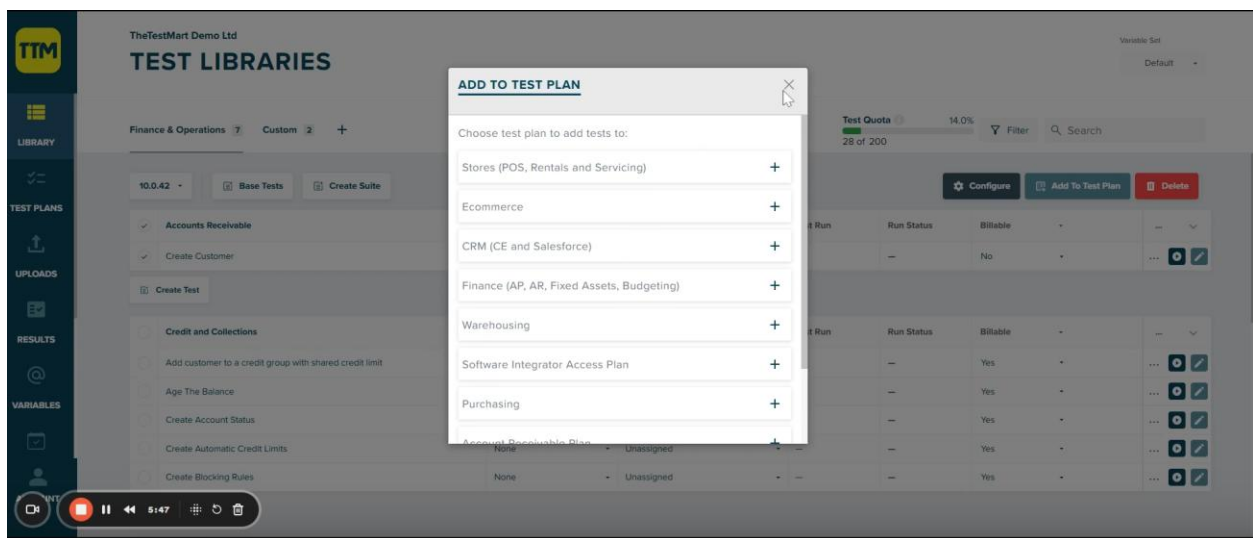

- Review the test quota percentage on the right side of the library page to monitor billable tests.

## 7. Assign Test Status and Owner [4:09](#)

- Within each test, assign a status and an owner to maintain organization and track progress.

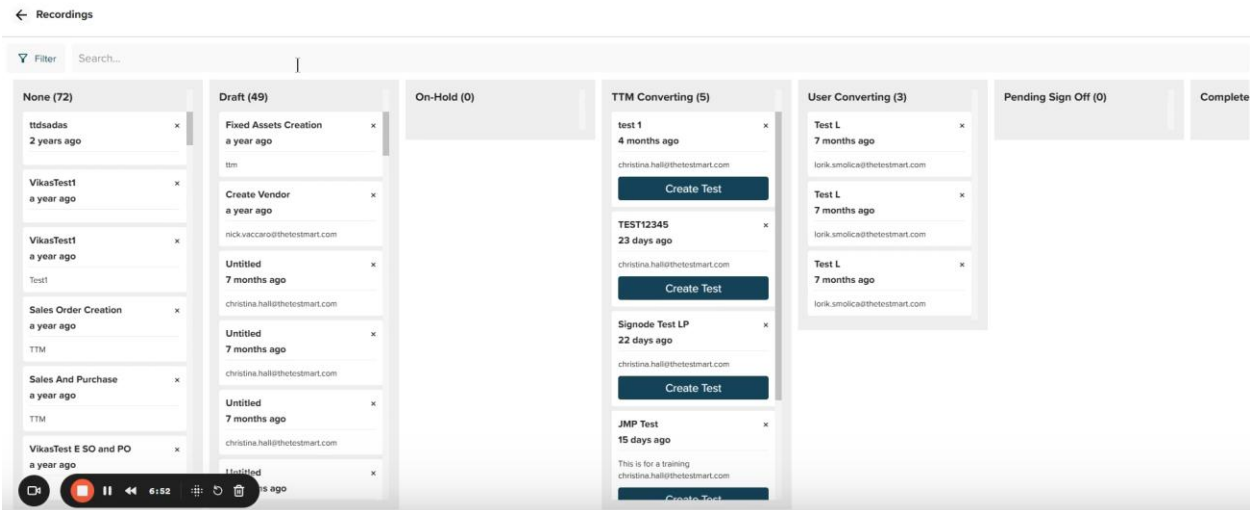

## 8. Add Test to Test Plan [5:01](#)

- Select the test name and click 'Add to Test Plan' to include it in a specific test plan.

## 9. Access Recordings Page [5:35](#)

- Navigate to the recordings page via the library module to view tests submitted through the Test Capture Recorder.

## 10. Monitor Recorded Tests [6:39](#)

- Check the status of recorded tests, including drafts and those pending sign-off, to track their development.

### Important Considerations

- Before adding a new platform, consult with your customer success representative to ensure it aligns with your agreement with the TestMart team.
- Be mindful of your test quota; exceeding it may incur additional costs.

### Tips for Efficiency

- Familiarize yourself with the layout of the TestMart Library to navigate quickly.
- Use the search and filter functions to locate specific tests or suites efficiently.
- Regularly update the status and ownership of tests to maintain clarity and accountability within the team.
